To Whom It May Concern:

I have known Enrico Leoni for approximately 10 years. During this time I have used him several times(10+) for large and small parties and even had him in my home for small gatherings of family and friends.

His performances have always been spectacular and truly defy explanation. I have witnessed many repeats of "tricks" over the years and I am still as mystified as the first time I saw them. He is truly the best close-up artist that I have ever seen and a delight at an occasion

Sincerely,
